

Section SF 1449 - CONTINUATION SHEET

SCOPE OF WORK

ROOFING REPLACEMENT  
JENNINGS RANDOLPH LAKE WV

FIXED PRICE SERVICE CONTRACT  
GENERAL BID SPECIFICATIONS

SECTION B

PRICES/COSTS

The Contractor, as an independent Contractor and not as an agent of the government, shall furnish all labor, supervision, equipment, and supplies to remove and replace roofing on the Control Tower and Maintenance Shop located at Jennings Randolph Lake WV, in accordance with the specifications of the contract.

ITEM	DESCRIPTION	QTY	U/I	UNIT PRICE	AMOUNT
01	<i>Remove and replace roof on Control Tower per specifications</i>		<i>ea.</i>	\$	\$
02	<i>Remove and replace roof on Maintenance Shop per specifications.</i>		<i>ea.</i>	\$	\$
<i>Total Items (item 01 thru item 02)</i>					\$

## SECTION C

### I. STATEMENT OF WORK

C.1 Statement of Work: The Contractor shall provide labor, supervision, plant, materials, equipment and supplies to install a new roof on the Intake Control Tower and Maintenance Building at Jennings Randolph Lake, West Virginia in accordance with the following special conditions, specifications and drawings.

C.1.1 Location: Jennings Randolph Lake is located in Garrett County, Maryland and Mineral County, West Virginia, on the North Branch Potomac River, and is 7.9 miles upstream from the mouth of Savage River. The Control Tower and Maintenance Building are located in Mineral County, West Virginia.

### II. SPECIAL CONDITIONS

C.2 Site Inspections: For the benefit of prospective bidders, an on-site inspection is highly recommended. To arrange for an inspection on site prior to bidding, contact the Park Manager, Jan Gonzales or his designate at (301) 359-3861 or (304) 355-2346.

C.2.1 Commencement of Work: All work will commence within 30 calendar days after notification of award of bid and be completed within 30 calendar days of award date. The start date will be coordinated with the Park Manager.

C.2.2 Performance of Work: The Contractor shall perform work only during normal Corps of Engineers duty hours (7:30 a.m. to 4:00 p.m., Monday through Friday, excluding national holidays). Exceptions to this condition must be coordinated with and approved in advance by the Park Manager, Jennings Randolph Lake Project.

C.2.3 Accident Prevention: In performing this contract, the Contractor shall comply with all current State and Local safety regulations, including personal safety requirements contained within the Corps of Engineers Safety and Health Requirement Manual EM 385-1-1, and shall comply with any subsequent changes. The Corps of Engineers Safety and Health Requirement Manual 385-1-1 may be found on the World Wide Web <http://www.hq.usace.army.mil/ceso/cesopub.htm>.

C.2.4 Accident Reporting: In the event of an accident or injury involving contractor personnel or equipment in performance of work, the Contractor shall immediately notify the Government representative by the most expedient means feasible. If instructed so, the Contractor shall complete forms furnished, and/or provide a written description of the incident within 24 hours of notification to do so.

C.2.5 Operations and Storage Areas: The Contractor shall confine all operations (including storage of materials) to areas authorized or approved by the Park Manager or his designate. The Contractor shall hold and save the Government, its officers and agents free and harmless from liability of any nature occasioned by the Contractor's performance.

C.2.6 Housekeeping: The Contractor shall keep the work area, including storage areas, free from accumulation of waste materials. Before completing the work, the Contractor shall remove from the work site and premises, any rubbish, tools, equipment, and materials that are not the property of the Government. Upon completing the work, the Contractor shall restore the work area to the original condition, satisfactory to the Contracting Officer.

C.2.7 Permits and Licenses: The Contractor at his/her own expense shall obtain any license or permits required to perform the contract. The Contractor shall comply with all current State and Local laws and regulations.

C.2.8 Superintendent: The Contractor shall act as, or provide a Superintendent who is responsible for quality control whenever the work specified herein is being performed. The Superintendent shall conduct overall management coordination and be the central point of contact with the Government for performance of all work under this contract. The Superintendent and any individual designated to act for him/her shall have full authority to contractually commit the Contractor to prompt action on matters pertaining to the administration of the entire contract. Such authorization shall be submitted in writing to the Government representative. The Superintendent shall deal directly with the designated, for the normal day-to-day administration of the contract provisions. The Superintendent will be required to attend a pre-work conference prior to commencing work under this contract.

C.2.9 Project Operation: Jennings Randolph Lake is a flood control project and the Contractor's access to the work area and the execution of the requirements specified herein shall not interfere with the daily operations of the dam or employees. It is the responsibility of the Contractor to coordinate all work with the Park Manager or his designate.

C.2.10 Security Requirements: The superintendent will provide the Park Manager or his designate, a roster of all employees and sub-contractors performing work under this contract at Jennings Randolph Lake. Workers entering the project will be asked for identification before being allowed access. A valid driver license will be sufficient for identification purposes.

### III. SPECIFICATIONS

C.3 Definitions: The term “roof” is defined as consisting of both the control tower circular roof of approximately 60 feet in diameter and the rectangular, flat, maintenance building roof with approximate dimensions of 35 feet wide by 65 feet long.

The term “service” as defined by this contract includes services performed, workmanship, and materials furnished or utilized in the performance of services.

C.3.1 General: The Contractor shall provide all labor, plant, equipment, tools, and materials necessary for existing roof removal and replacement as specified in paragraphs C.3.2 through C.3.7.

C.3.2 Roof Removal: The existing roof will be removed and disposed of in accordance with prevailing State and Local laws and ordinances.

C.3.3 New Roof Insulation: Acceptable insulation should meet or exceed a minimum 1” of a closed-cell, tapered, polyisocyanurate foam, laminated with a coated fiber mat facing. Insulation is to be mechanically attached to the roof surface with commercially available corrosion resistant fasteners and plates.

C.3.4 Finished Surface Material: A minimum of a 0.45 mil reinforced membrane, equivalent to, or exceeding, the physical specifications of a “RubberGard MAX®” roofing membrane. The surface membrane will be fully adhered to the substrate insulation creating a permanent watertight bond.

C.3.5 Drainage: Surface drainage will be accomplished by positioning of the tapered substrate insulation specified in paragraph C.3.3 to prevent surface pooling and standing water. The control tower roof will include two retrofit drains at existing drain locations’ including the installation of cover grates to be supplied by the contractor.

C.3.6 Flashing: Flash roof and all roof penetrations per manufacturer’s specifications. Fabricate and install new metal roof edge from 24 gauge, pre-finished galvanized steel in a color to be determined from manufacturer’s standard color options.

C.3.7 Lightning Protection Systems: The contractor will ensure that the integrity of the existing lightning protection system be restored after completion of roof installation. All parts, materials, and labor to restore this “integrity” will be solely at the contractor’s expense.

## SECTION G

### MEASUREMENT AND PAYMENT

G.1 General: Measurement and payment shall be made on a lump-sum basis upon the satisfactory completion of work. Payment shall constitute full compensation for providing all labor, equipment, materials, supplies, tools, and incidentals required to fulfill all of the requirements of this contract.

G.2 Upon satisfaction of the contract, the Contractor shall submit invoice (s) for payment to:

Original Invoice Forwarded To:

U.S. Army Corps of Engineers  
Jennings Randolph Lake Project  
PO Box 247  
Elk Garden, WV 26717

Payment will be made by:

USACE Finance Center  
ATTN; EFT/Disbursing  
5720 Millington, TN 38054-5005

G.2.1 The Invoice should be submitted within five calendar days after notification of acceptance of work. Invoice must provide:

- (a) Contractor's name and mailing address
- (b) Contract/Purchase Order Number
- (c) Date prepared
- (d) Itemized costing where applicable

G.2.2 Questions regarding preparation and forwarding of invoice maybe directed to the Jennings Randolph Lake Office, telephone: (301) 359-3861.

### WAGE & DETERMINATIONS

#### WAGE DETERMINATION DECISION of the SECRETARY OF LABOR

The following wage determination will be used to conform with the requirements of the Davis-Bacon Act (40 U.S.C. 276a to 276a-7) of the Contract Clauses\*:

Decision No. WV030002 dated 13 June 2003

BUILDING CONSTRUCTION WAGE SCHEDULES FOR MINERAL COUNTY ONLY      APPLY  
TO THIS PROJECT.

GROUP 11	20.65	5.45

GROUP 1 - Carpenter Tender; Flagperson; General laborer; Landscaper; Toolroom person; Janitor; Warehousemen; Drinking Water Supplier and Hazardous Waste Level D.

GROUP 2 - Brick Handler; Tender for Brick Mason, Plasterer, Stonemason & Tile Setter; Mortarman for Mason & Plasterer; Man Mixing Cement for Cement Finisher; Scaffold Builder; Mortar Mixer Machine Operator; Forklifts; Hazardous Waste Level C; Lead Abatement; Fork Trucks; Walk-Behind Concrete Saw; Form Setters; Epoxy Laborers; Paving Brick Laborers; Dry Block; Pre-Cast; Lagging; Decorate Blocks and Sand Stone.

GROUP 3 - Concrete Buster; Jack Hammer; Air Spaces; Chipping Hammer; Air Tamper; Vibrator; Power Buggy; Concrete Saw; Power Saw; Sandblaster; Acetylene Burner; Scuba Diver; Panel Cleaning Machine Operator; Power Driven Tools; Air Pump; Air

Blow Pipe; Pipelayer & Tender Working in Ditch or Tunnel;  
 Hand Spikers on Railroads and Laborer Handling Concrete for  
 test or working with Tar; Acid or Creosote; Asbestos 2" and  
 under; Gasoline Pump; Shop Vac (wet or dry); Skid Steers;  
 Hazardous Waste Level B; Fire Hose; High Pressure Water Hose;  
 Super Suckers; Vacuum Truck and Hose Laborers, Core Drillers;  
 Drilling for Anchor Bolts, Dowel Rods and Pins;

GROUP 4 - Laser Beam: \$.35 per Hour above the Laborers  
 classification with which he is or she is working.

GROUP 5 - Work Pertaining to or in connection with & Repair of  
 Stoves, Blast Furnaces, Basic Oxygen Process Furnaces;  
 Steeples & Stacks; Annealing Process Furnaces; Kilns, Soaking  
 Pits, Coke Batteries on Industrial Work; (Employer agrees to  
 pay One Dollar (\$1.00) per hour above prevailing Group 5  
 rate Laborers working with crafts receiving hot pay, includ-  
 ing working conditions granted to other crafts); Hazardous  
 Waste Level A; Ram cutters on Industrial work and anything  
 pertaining to, such as expansion joints etc.

GROUP 6 - Demolition of Stacks:

A - 50' to 100'

B - 100' to 150'

C - Over 150'

Rates apply when servicing or working with other crafts  
 receiving high time or working in areas subject to free  
 fall.

GROUP 7 - Blasterman & Tender; Bellman & Lancer, All Bottom Men  
 in Blast Furnaces, Stacks, Stoves & Dust Catchers; Mud Man &  
 Laborers working with carbon brick and handling Bottom Block  
 on Blast Furnaces, Stacks, Stoves & Dust Catchers

GROUP 8 - Ditches, Trenches, Caissons & Coffers Over 6' deep  
 Open Top

GROUP 9 - Miners including Caissons & Coffers, Horizontal or  
 Underground, Mucking Machine Operator

GROUP 10 - Tunnel laborers, Muckers including caissons and  
 Coffers, Horizontal and Underground.

GROUP 11 - Gunnite Nozzleman & Gunnite Machine Operator - Grout  
 Nozzleman & Grout Machine Operator

Level A:

Protective equipment is required when the area has been deter-  
 mined to contain extremely toxic contaminants or contaminants  
 unknown but may be expected to be extremely toxic and/or immed-  
 iately dangerous to life and health (IDLH). This ensemble in-  
 cludes a fully encapsulated chemical suit (moon suit), Self-  
 contained Breathing Apparatus (SCBA), or Airline Fed Respirator  
 and various types and numbers of boots and gloves; Cool vest  
 and voice-activated radios are optional equipment sometimes  
 worn, Level A ensembles provide the highest level of protection  
 from contaminants, but places the greatest physicals and mental  
 stress on the worker. The claustrophobic environment of the  
 moon suit causes anxiety in most people, which greatly  
 increases the already inherent heat stress problems. Also this  
 ensemble reduces vision, mobility, dexterity and communication  
 capacity, all of which increases the risk of normal job-related

injuries; i.e., slips, falls, caught between, etc.

Level B:

Protective equipment includes a chemically resistant splash suit and a SCBA or Airline Respirator. This ensemble is required when the situation is very hazardous, such as oxygen deficient atmospheres, IDLH atmospheres, or confined space entries, but the risk of skin exposure is not as great as in Level A situation.

The Level B ensemble gives the second highest level of protection, but also puts physical stress on the worker; primarily heat stress, reduced vision, dexterity and mobility directly attributable to wearing of the protective equipment. Therefore, in addition to the hazardous material, the hazard of normal job-related injuries is greatly increased.

Level C:

Protective equipment includes a protective suit and an Air Purifying Respirator (APR) with the appropriate filter canisters. The ensemble is used when the contaminants are reliably known not to be hazardous to the skin and not IDLH (Immediately Dangerous to Life and Health) and correct filter protection is available.

This ensemble offers adequate protection for many jobs. Heat stress may be a problem due to the suit and respiration is more difficult due to the inherent restrictions to breathing in an APR. Also, normal job-related injury risk will be nearly as high as for Level B equipment.

Level D:

Type clothing to be worn only in established "safe zones" may consist of normal work clothes to normal skin protection such as gloves, face shields, goggles, coveralls and occasionally respiratory protection.

 =====

Unlisted classifications needed for work not included within  
 the scope of the classifications listed may be added after  
 award only as provided in the labor standards contract clauses  
 (29 CFR 5.5(a)(1)(ii)).  
 -----

In the listing above, the "SU" designation means that rates  
 listed under that identifier do not reflect collectively  
 bargained wage and fringe benefit rates. Other designations  
 indicate unions whose rates have been determined to be  
 prevailing.

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can  
 be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a

position on a wage determination matter  
 \* a conformance (additional classification and rate)  
 ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
 Wage and Hour Division  
 U. S. Department of Labor  
 200 Constitution Avenue, N. W.  
 Washington, D. C. 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
 U.S. Department of Labor  
 200 Constitution Avenue, N. W.  
 Washington, D. C. 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
 U. S. Department of Labor  
 200 Constitution Avenue, N. W.  
 Washington, D. C. 20210

4.) All decisions by the Administrative Review Board are final.  
 END OF GENERAL DECISION

#### CLAUSES INCORPORATED BY FULL TEXT

##### 52.207-4 ECONOMIC PURCHASE QUANTITY--SUPPLIES (AUG 1987)

(a) Offerors are invited to state an opinion on whether the quantity(ies) of supplies on which bids, proposals or quotes are requested in this solicitation is (are) economically advantageous to the Government.

-----  
 -----  
 -----

Each offeror who believes that acquisitions in different quantities would be more advantageous is invited to

recommend an economic purchase quantity. If different quantities are recommended, a total and a unit price must be quoted for applicable items. An economic purchase quantity is that quantity at which a significant price break occurs. If there are significant price breaks at different quantity points, this information is desired as well.

OFFEROR RECOMMENDATIONS			
	PRICE		
ITEM	QUANTITY	QUOTATION	TOTAL

---

---

---

(c) The information requested in this provision is being solicited to avoid acquisitions in disadvantageous quantities and to assist the Government in developing a data base for future acquisitions of these items. However, the Government reserves the right to amend or cancel the solicitation and resolicit with respect to any individual item in the event quotations received and the Government's requirements indicate that different quantities should be acquired.

(End of provision)

#### 52.212-2 EVALUATION--COMMERCIAL ITEMS (JAN 1999)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers: Quality, price and delivery

(Contracting Officer shall insert the significant evaluation factors, such as (i) technical capability of the item offered to meet the Government requirement; (ii) price; (iii) past performance (see FAR 15.304); (iv) small disadvantaged business participation; and include them in the relative order of importance of the evaluation factors, such as in descending order of importance.)

Technical and past performance, when combined, are very significant. (Contracting Officer state, in accordance with FAR 15.304, the relative importance of all other evaluation factors, when combined, when compared to price.)

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of clause)

#### 52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL ITEMS (APR 2001) (DEVIATION)

(a) Comptroller General Examination of Record. The Contractor agrees to comply with the provisions of this paragraph (a) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-5, Audit and Records-Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to the right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times, the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of form. This does not require the Contractor to create or maintain any record that the contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(b) The Contractor is not required to include any FAR clause, other than those listed below (and as may be required by an addenda to this paragraph to establish the reasonableness of prices under Part 15), in a subcontract for commercial items or commercial components –

(1) 52.222-26, Equal Opportunity (E.O. 11246);

(2) 52.222-35, Affirmative Action for Disabled Veterans and Veterans of the Vietnam Era (38 U.S.C. 4212);

(3) 52.222-36, Affirmative Action for Workers with Disabilities (29 U.S.C. 793); and

(4) 52.247-64, Preference for Privately-Owned U.S.- Flag Commercial Vessels (46 U.S.C. 1241)(flow down not required for subcontracts awarded beginning May 1, 1996).

(5) 52.222-41, the Service Contract Act as Amended (41 U.S.C. 351, et seq.) Subcontracts for certain commercial services may be exempt from coverage if they meet the criteria in FAR 22.1103-4(c) or (d) (see DoD class deviation number 2000-O0006).

(End of clause)

#### 52.222-22 PREVIOUS CONTRACTS AND COMPLIANCE REPORTS (FEB 1999)

The offeror represents that --

(a) ( ) It has, ( ) has not participated in a previous contract or subcontract subject to the Equal Opportunity clause of this solicitation;

(b) ( ) It has, ( ) has not, filed all required compliance reports; and

(c) Representations indicating submission of required compliance reports, signed by proposed subcontractors, will be obtained before subcontract awards.

(End of provision)

#### 52.223-11 OZONE-DEPLETING SUBSTANCES (MAY 2001)

(a) Definition. Ozone-depleting substance, as used in this clause, means any substance the Environmental Protection Agency designates in 40 CFR part 82 as--

- (1) Class I, including, but not limited to, chlorofluorocarbons, halons, carbon tetrachloride, and methyl chloroform; or
- (2) Class II, including, but not limited to, hydrochlorofluorocarbons.

(b) The Contractor shall label products which contain or are manufactured with ozone-depleting substances in the manner and to the extent required by 42 U.S.C. 7671j (b), (c), and (d) and 40 CFR Part 82, Subpart E, as follows:

“WARNING: Contains (or manufactured with, if applicable), a substance(s) which harm(s) public health and environment by destroying ozone in the upper atmosphere.”-----

The Contractor shall insert the name of the substance(s).

(End of clause)

#### 52.225-9 BUY AMERICAN ACT—CONSTRUCTION MATERIALS (MAY 2002)

(a) Definitions. As used in this clause--

Component means an article, material, or supply incorporated directly into a construction material.

Construction material means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means--

- (1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
- (2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the end product.

Domestic construction material means--

- (1) An unmanufactured construction material mined or produced in the United States; or

(2) A construction material manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic.

Foreign construction material means a construction material other than a domestic construction material.

United States means the 50 States and the District of Columbia, U.S. territories and possessions, Puerto Rico, the Northern Mariana Islands, and any other place subject to U.S. jurisdiction, but does not include leased bases.

(b) Domestic preference. (1) This clause implements the Buy American Act (41 U.S.C. 10a-10d) by providing a preference for domestic construction material. The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

(2) This requirement does not apply to the construction material or components listed by the Government as follows: None [Contracting Officer to list applicable excepted materials or indicate "none"]

(3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the requirements of the Buy American Act is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

(ii) The application of the restriction of the Buy American Act to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American Act. (1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including--

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American Act applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American Act applies, use of foreign construction material is noncompliant with the Buy American Act.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars) \1\
Item 1			
Foreign construction material....	.....	.....	.....
Domestic construction material...	.....	.....	.....
Item 2			
Foreign construction material....	.....	.....	.....
Domestic construction material...	.....	.....	.....

Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).

List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.

Include other applicable supporting information.

(End of clause)

52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

#### 252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (APR 2001) (DEVIATION)

(a) In addition to the clauses listed in paragraph (b) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items (DEVIATION) clause of this contract, the Contractor shall include the terms of the following clause, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

252.225-7014	Preference for Domestic Specialty Metals, Alternate I (MAR 1998) (10 U.S.C. 2533a).
252.247-7023	Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631)
252.247-7024	Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631)

(End of clause)

252.225-7000 BUY AMERICAN ACT--BALANCE OF PAYMENTS PROGRAM CERTIFICATE  
(SEP 1999)

(a) Definitions. Domestic end product, qualifying country, qualifying country end product, and qualifying country end product have the meanings given in the Buy American Act and Balance of Payments Program clause of this solicitation.

(b) Evaluation. Offers will be evaluated by giving preference to domestic end products and qualifying country end products over nonqualifying country end products.

(c) Certifications. (1) The Offeror certifies that--

(i) Each end product, except those listed in paragraphs (c) (2) or (3) of this provision, is a domestic end product; and

(ii) Components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country.

(2) The Offeror certifies that the following end products are qualifying country end products:

Qualifying Country End Products

<u>Line Item Number</u>	<u>Country of Origin</u>
1 -2	USA

(List only qualifying country end products.)

(3) The Offeror certifies that the following end products are nonqualifying country end products:

Nonqualifying Country End Products

<u>Line Item Number</u>	<u>Country of Origin (If known)</u>

(End of provision)
